

18 Days

I got a one way ticket out of Avondale
And this fire to keep me warm
I got a leave on the 9:05
Yeah I can't stay long

You and I were speeding like a runaway
All the sirens flashing lights
Couldn't stop that crash from happenin'
You know I'm right

I got hope
I got love
I got peace in the Lord
I got trains heading' north
To take me home

There were 18 days of rain that storm
Would surely knock us down
But I held you tight
When we left that crazy town

I ain't mad I ain't sorry
All this love I gave
Rather risk it all
Than just let you walk away

I got hope
I got love
I got peace in the Lord
I got trains heading' north
To take me home

You got flowers you got sunshine
You got Angels you can't lose
So let your heart
Guide you down
The road you choose
The road you choose
